

Through 26 DCs, 41 field stocking locations, 8 transportation centres in all key markets, and access to the widest final mile delivery network in Canada, SCI Logistics fully controls the execution of logistic solutions.

Over 3 million sq. ft of logistics space across 26 Distribution Centres operating nationally. Multiple Distribution Centres in key markets.

SCI White Glove extensive network provides comprehensive care and coverage for our valued customers. 90% of Canada is serviced directly from SCI's own Transportation Centres with the rest of the country being serviced by our agents.

Agents operate on SCI's technology, and are supported by a Regional Agent Manager who provides product training and auditing functions to ensure service consistency across Canada.

Enhanced Technical Services provided in 13 configuration centres and in the field across the country: configuration, staging, installation of equipment, component and network connection, swap, diagnostics, triage, break-fix, and data erasure.

📍 SCI Central Stocking Location

SCI's Central Stocking Location is the strategic main hub for National fulfillment and distribution of parts and supplies to field stocking locations. The 70,000 sq. ft multi-client facility provides extended 8 pm cut-off time for the next morning delivery.

SCI's strategic Field Stocking Locations downtown facilities in every major Canadian city.

SCI Logistics can reach 94% of Canadian businesses from its 41 Field Stocking Locations within 4 hours.

Three regional Reverse Logistics Centres provide salvage, scrapping with certification, recycling, disposition to the US, and shred services, including transportation.
